DICKER DATA LIMITED ANNOUNCES SUCCESSFUL COMPLETION OF EQUITY RAISING

Dicker Data Limited (ASX: DDR) is pleased to announce the successful completion of its institutional placement to raise \$40.25 million and a \$10.5m sell down by founders David Dicker and Fiona Brown. The company also proposes to undertake an underwritten share purchase plan (**SPP**) to raise a further \$5.25m from existing shareholders.

A total of 23 million shares will be issued under the placement at a price of \$1.75, and these shares will rank equally with existing DDR ordinary shares.

Dicker Data's CEO and Chairman, David Dicker, said "I am very happy with the result. This concludes both our Public Float and Express Data projects."

He went on to say "We can now concentrate on driving the company forward."

"When combined with the \$20m of retained cash from profits the company has made since acquiring Express Data, the \$45.5m raised fully covers the total cost of both the acquisition and the integration of Express Data. And it does so ahead of our schedule."

The Company now has a strong base of institutional shareholders, with total public ownership of the company at approximately 30%. The Net Assets of the company move from \$29m to \$73m.

Petra Capital was sole bookrunner and is underwriter to the SPP.

Settlement

Settlement of shares issued under the placement is scheduled to occur on Friday 7 August 2015, with allotment to occur on Monday 10 August 2015.
