**DICKER DATA EXTENDS DISTRIBUTION AGREEMENT WITH SYMANTEC**  
**Agreement Now Encompasses Access to Symantec's Full Integrated Cyber Defence Portfolio**

The Board of Directors of Dicker Data Limited (ASX: DDR) are pleased to announce the extension of our existing Symantec distribution agreement. Under the new agreement which is effective immediately, Dicker Data has been granted access to distribute the network security portfolio Symantec gained through its acquisition of Blue Coat last August.

David Dicker, Chairman & CEO, Dicker Data Limited, said "We're pleased to be deepening our partnership with Symantec through the addition of its network security portfolio. Enterprise security is currently a key point on every organisation's agenda, including at the Board level. As cyber-attacks become more prolific it's critical that organisations implement robust and integrated security solutions like Symantec's to protect their data and their customer's data from vulnerabilities."

"Symantec's success is tightly linked to the power of the channel and nurturing strong partnerships," said Joe McPhillips, director of Channel Sales, Symantec Corporation, Pacific. Our new Secure One program makes doing business with Symantec simpler, more predictable, and more profitable for partners."

McPhillips added, "We have taken the first key step by streamlining our channel operations and the expansion of our relationship with Dicker Data is a testimony to our commitment to our channel partners."

Dicker Data's addition of Symantec's network security portfolio comes as the organisation continues to bolster its security practice and offer the most comprehensive range of mid-market and enterprise security solutions.

For and on behalf of the Board,

David Dicker  
Chairman & CEO
